A smartphone is displayed horizontally, showing a website for "KOSMIC TEA". The phone has a black case and a white back panel. The website header includes the brand name "KOSMIC TEA" and a navigation bar with links for "Home", "Shop", and "Events". The main content area features a photograph of various tea ingredients (leaves, flowers, and a camera lens) arranged on a wooden surface, with the text "Purposeful Blend" overlaid. # CUSTOMER TESTIMONIALS

01

"I made concentrated tea for iced tea mix with sugar and milk. It creates excellent layer with great aroma! So far, best tea from this shop. Next best is Rose tea. I'm ordering more moonstone tea soon!"

02

"Compared to other celestial teas this one actually soothes me. After a long week it is my go to for help with unwinding. When it comes to herbal celestial teas they tend to have a flowery taste; with Kosmic Celestite teas the blends compliment each other and work together to give you a taste worthy drink. If you are a tea drinker Kosmic tea is definitely the way to go!"

03

"When I first purchased Kosmic Tea, I was looking for a blend that would taste good but also serve its intended purpose. Kosmic Tea did not disappoint. The Rose Tea is my favorite simply because it does exactly what its label says and it has a bold flavor."
